Mr. Russell's Letters.

The London Times publishes another lette from Mr. R., dated New Orleans, May 25th. which is of different tenor from several before given. He speaks of the "outrageous" impress ment of British subjects into the Southern army and describes a condition of things approaching to

From Grafton. [Special Dispatch to the Cincinnati Gazette.] GRAFTON, June 28 .- Col. Wallace sends Gen. McClellan the following statement of the affair

near Cumberland: I have been accustomed to sending my mount ed pickets, thirteen in all, to different posts along the several approaches to Cumberland. Finding it next to impossible yesterday to get reliable in formation respecting the enemy, I united the thirteen, and directed them if possible to get to Frankforttown, midway between this place and Romney, and see if the rebel troops were there. they went within a mile of the place, and tound it full of cavalry.

In returning, they overtook a party of horsemen, and at once charged them, routing and drying them back more than a mile, killing eight of them and securing seventeen horses. Corporal Hayes, who was in command of my

men, was desperately wounded with sabre cuts and ballets. Taking him back, they halted about one hour and were then attacked by the enemy, who were reinforced to about seventy-five men. The attack was so sudden that they abandoned the horses and crossed to a small island at the mouth of Patterson's creek. The charge of the rebels was bold and confi-

picket, close about and on the island. My men finally were driven off and scattered each man for himself. All are in camp now. Corporal Hays of Company A, is wounded, but recovering. John C. Hollingsworth of Company B, is dead. He was taken prisoner and brutally murdered. Three companies went to the ground this morning and recovered everything belonging to the picket except a few horses.

The enemy were engaged all night in boxing up their dead. Two of their officers were killed. They laid out twenty three corpses in the porch of a neighboring farm house. We shall bury Hollingsworth to-morrow. I have positive information that four regiments rebels are in Romney, under Col. McDonald. Allen, of the New York 1st regiment, was arrested to-day by order of Gen. Butler. It then states that Allen and other officers have arrested many armed secessionists lately who have been released by Butler. On Friday word came that a field of wheat belonging to Kearney. Major Thompson of the rebel army, was being gathered to be sent to Yorktown to the rebels, and some had the assurance to ask Col. Allen for horses which had been confiscated to convey the wheat to the enemy, which were refused, and a squad of men sent to prevent the wheat from being taken. Soon after the wheat field was in flames and twenty acres destroyed. Major General Butler thereupon ordered Col. Allen to report at headquarters under arrest, and paraded his

regiment under command of Lieutenant Colonel The dispatch further volunteers the remark that this and other movements of Butler cause his loyalty to be suspected, and says it is rumored the regular officers are preparing a petition for his removal, and that the New York regiments are elamorous to have a Major General from their own State, and that all the officers, both regular and volunteer, will decline to attack in battle un-

der Gen. Butler. The arrest causes considerable excitement at the Fortress. The Tribune remarks on the above special that it has no doubt Col. Allen deserved to be arrested. He left the police department of New York last fall on account of drunkenness, and the above dispatch evidently was sent by some friend of Allen's. It considers the imputation of Butler's loyalty absurd, and so do a majority of the pub-

Where he will be happy to meet all those afflicted without kind of disease-and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defles all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cured, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only

ossible plan to ascertain the true cause of disease. The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America. Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its rue cause. He has no puffed nostrums that will cure all diseases.

Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering under pale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease insidiously creeping on, every faculty is shattered, constitution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms in prompt and proper medical treatment.
